

SCHAUMBURG ATHLETIC ASSOCIATION

Youth Basketball Appendix of League Rules 2021-2022 Season

OFFICIAL RULES:

1. The High School Rules published by the National Federation of State High School Associations (<https://www.nfhs.org/activities-sports/basketball/>) will be followed except where amended by league rule or the individual league commissioner. There will be a graduated progression in the league rules for the various grade levels
2. Each player, regardless of ability, is guaranteed playing time of one full quarter in each half and at least 2 quarters each game.
3. No player may play four quarters in a game until all other players have played three quarters. Any portion of a quarter is deemed a full quarter for purposes of substitutions (except in the case of injury).
4. **SUBSTITUTION RULES SPECIFIC TO THE INSTRUCTIONAL LEAGUES:** Each player must play a minimum of one quarter per half. Substitutions should only occur at the end of quarters, unless agreed to by both coaches due to injuries. Players needing to arrive late or leave early (with advance notice) may play two quarters in one half upon the discretion of the coaches. To discourage arriving late to games without advance notice to the coaches, anyone arriving after the first half has ended (with no previous notice) will only be allowed to play one quarter. No player can play 4 quarters until every other player has played 3 quarters, unless there is a physical or medical reason a player cannot play 3 quarters.
5. **SUBSTITUTION RULES SPECIFIC TO THE COMPETITIVE LEAGUES:** If a player does not show up for a game, the coach is allowed to play the immediate player drafted before the missing player and any player drafted below or any two players drafted below the missing player. If a player has to leave the game for whatever reason (sickness, injury, has to attend another function, etc.), the coach can only play the player drafted below the leaving player. If a player has been ejected or fouled out, the coach can only play the players drafted below the ejected player for the remainder of the game and/or the game in which the player is suspended. If a player shows up in the middle of the second quarter, that player can only participate in one quarter of the second half. If the player shows up in the third quarter, that player may play in the fourth quarter if only all other players have gotten their second quarter.
6. During the regular season, teams with less than ten (10) players on their roster will share the extra playing time with all players. Extra playing time will be rotated so that all players get to play an extra quarter. No player shall play a second extra quarter until all players have played one. If a roster player is missing the game regular substitution rules will apply to fill his/her spot. Coaches must notify the opposing coach whose turn it is to play the extra quarter at the beginning of the game.
7. During year-end tournaments, all teams will be considered to have ten (10) players. For those teams with only 9 players, they will be treated as if their last (10th) drafted player is missing the game. This means that the players drafted 8th and 9th on that team

- will play an extra quarter in all tournament games. This will help retain the parity of teams established by the league's draft.
8. All coaches must abide by these rules of substitution and are not allowed to change or ignore these rules in any specific game situation, even if both coaches agree to a rule change. If a team is caught doing illegal substitutions, that team will forfeit that game; this applies for the full season, and playoffs. Sometimes we forget, and it's an honest mistake, but if you read your rulebooks, it shouldn't happen.
 9. Only league uniforms are to be worn for games
 10. Medical Contact forms must be signed by the respective parent and on file with the team coach PRIOR TO allowing the child to participate in practices or games. Forms are available on the SAA website, listed under Forms & Documents.
 11. A player who has a medical condition that is currently being treated or requires long-term care must provide a written physician's release allowing them to participate in the program. Coaches are to keep these forms throughout the season.
 12. Players should have trimmed fingernails. Jewelry shall not be worn except for religious or medical medals. A religious medal must be taped and worn under the uniform. A medical alert must be taped and may be visible.
 13. Those who have braces must wear mouth guards in practices and games.
 14. All glasses must be secured by a strap and the strap shall not dangle loose behind the head.
 15. All hair bows or other hair restraints must be made of soft materials.
 16. No casts allowed, even if they have a soft wrap.
 17. Any appearance of blood constitutes a stoppage of play. The bleeding wound or area must be entirely stopped and covered before the player may re-enter the game.
 18. Gym shoes and sweat socks must be worn.
 19. Players must be in their appropriate grade level for each league. The Head Basketball Commissioner and Board have the authority to make an exception to this rule.
 20. POSSESSION ARROW: The game begins with a jump ball. Whichever team secures possession of the ball then the arrow points to the other team's basket for the next jump ball. The arrow will continue to switch throughout all quarters for each jump ball. At the end of the 1st, 2nd and 3rd quarters whatever way (basket) the arrow is pointing indicates which team will get the ball first for the next quarter. Once the ball is thrown into play at the start of the 2nd, 3rd and 4th quarters the arrow switches. At the end of the 2nd quarter the arrow is switched because the teams are switching baskets that they are shooting at for the 3rd and 4th quarter. It is possible that the same team could get the ball at the beginning of every quarter.
 21. OVERTIME: in the competitive leagues, at the end of regulation play with the score tied, the game will go into overtime. All players are eligible to play, except those players who have fouled out. All player fouls and technical fouls, points

- and remaining time outs carry over to the overtime period(s). Each team will receive one additional time out for each overtime period. Each team may play any eligible player in the first overtime period but once again, the substitution rules will determine which players may play in any following overtime periods. Also, no player may play four periods until all players have played three. 5th thru 8th grade will have one (1) three-minute OT during regular season, with one (1) timeout per team. If still tied after one OT period, a sudden death period will be played. For playoffs, additional two-minute OT period(s) will be played until a winner is determined
22. FOULS: players are allowed 5 fouls per game. In the unlikely event that you have only 5 players or everyone but 5 players have fouled out and one of these players commits her/his 5th foul, the following rule will apply: The fouled out players team will be assessed a 2-shot technical and loss of ball (in addition to foul shots earned on the actual foul). The player will remain in the game. If the same player fouls again, the same rule will apply and for each subsequent foul after that. All other events; players will be allowed five (5) fouls per game and are out of the game on their fifth foul. If an intentional foul is called, the player committing the intentional foul will be assessed a two-shot technical but allowed to remain in the game. If the same player commits a second intentional foul in the same game, the player will be ejected from the game. Flagrant fouls will not be tolerated. Any player who receives a second intentional foul call or a flagrant foul call and any player or coach who receives a second technical foul, will be ejected from the game and must leave the gym and building and not return for the remainder of the day. In leagues 1st through 4th, the foul shooter may cross the free throw line while releasing the free throw. For grades 5th and above, the foul shooter must stay behind the foul line. The shooter cannot charge the basket for a rebound until the ball hits the rim.
23. There are three time-outs per game per team.

5. Scorekeeping is done by quarter, with the scoreboard resetting to zero at the end of each quarter. There will be no final game score recorded, and no individual scoring kept or recorded. There are no overtime periods. A quarter can end in a tie.
6. No defense in the backcourt. The "no defense in the backcourt" call will take precedence over any other foul or action occurring at the same time.

After the offensive ball handler has established front court position there will be a five count by the game official for that player to either release a pass or break the neutral zone plane.
